

CAREER SERVICES

As you are well aware, the MSTC Program does not have a placement arm like the Ford Center at McCombs; nor is one appropriate for us. Nearly all of our students enter the Program with a job; in fact, many are funded by their employers. However, all our students and graduates need to manage their careers. An Austin firm, The Ginac Group, focuses on this function as described on The Ginac Group's website:

The Ginac Group, Inc. is a leading provider of career development services. The Company serves individuals, including chief executive officers and a host of other professionals in corporations and government agencies, as well as Fortune 500 and start-up businesses. The Company focuses on delivering objective and actionable advice to enable clients to make more informed career and work-life decisions. The Company's business consists of Career Management Programs, career exploration and transition services; Certified Career Practitioner Institute, training and certification for helping professionals; and Ginac Publishing, editorial and promotional resources related to the career field. Founded in 1999, The Ginac Group is headquartered in Austin, Texas. Our core competencies include change management, career counseling, career development, career transition, professional development coaching, assessment, career exploration, management team alignment and senior-level outplacement. (See ginacgroup.com.)

We have contracted with The Ginac Group to conduct a Workshop Series on Career Management for our current students and alumni. The Workshop Series should be beneficial both for those who are planning a promotion strategy within their current organizations and for those who are considering changing employers.

This is the first time that the MSTC Program has offered this service. Lara Horowitz and I have been very impressed with The Ginac Group and anticipate that you will find the Workshops very valuable.

The Workshops are recorded and can be accessed via the official MSTC Alumni Association Group. If you are a current student or alumni and wish to view the Workshops Series, contact [Lara Horowitz](#).

Gary M Cadenhead, Director
